Touristique

Discerning philately demands a professional aptitude and a love for detail:

## LIGHTHOUSE pre-printed albums

The LIGHTHOUSE album series has been prepared with so much expertise, knowledge, and attention to detail. All materials and production must be of a high quality.

With a large variety of over 140 collection areas and editorial philatelic processing by our renowned editorial office, LIGHTHOUSE pre-printed albums satisfy even the demands of the experienced and avid philatelists.

Stamps of the same kind which vary in color, perforation or printing process have their individual characteristics noted on the respective album page. This only applies to stamps with Michel (major) numbers and they include the year where required. This label

can be located next to or, in the case of inlaid stamps, underneath the SF mount according to the type of information in question. Featuring the information in this manner will ensure an aesthetically pleasing overall presentation.

LIGHTHOUSE prints its album pages (size  $10\frac{5}{8} \times 11\frac{5}{8}$ " / 270 x 297 mm / 13-hole system) on non-ageing wood and acid free cardstock in high resolution black and white offset print.

The SF protective mounts are free of chemical softeners and have a clear non-reflecting film the same size as the pre-printed stamps, they affix to the page. These hold the stamps in place and prevent them from getting stuck. At the same time, they provide ideal protection against dust and dampness.

LIGHTHOUSE offers pre-printed album pages without the SF protective mounts for some countries. Those pages are located in the section titled "Regular" edition.

LIGHTHOUSE binders come with different mechanisms and designs, so you can decide which storage style best suits your needs. Here, too, quality and a great love for detail are at the forefront of our objectives. LIGHTHOUSE binders, with their high quality and robust covers with gold embossing, are often a long term companion for any collector (see pages 33–38).

### Number of pages

The number of pages listed in the detailed country information includes the title page.

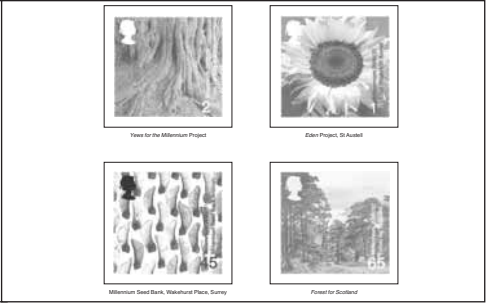

## The advantages of LIGHTHOUSE illustrated albums

Pre-printed albums are available in a large variety of colors.

Superior black and white print quality – you can immediately spot the missing stamps in your collection.

Optimum protection for your stamps using the appropriate SF mounts (100% polystyrene, free from chemical softeners, stabilisers and sulphur).

Cardstock is acid-free and wood-free.

13 punched holes, meaning sheets stay in position in the binder. Elongated punched holes to ensure sheets remain flat.

Ideal for different types of binders (springback, ring and turn-bar binders).

OUR  
COLLECTORS'  
TIP

### Supplements:

You can always keep your LIGHTHOUSE albums up to date with the annual supplements. Supplements appear each year for stamps issued in the previous year.

# Stockbooks and Stockcards

Stockbooks are stamp albums made of heavy cardboard with horizontal glassine or clear film strips, into which stamps are inserted. Even if part of the collection is stored differently, e.g. in illustrated country albums, stockbooks are an essential piece in the tool kit of every philatelist. They can serve to hold duplicates, as a mobile solution for visiting stamp shows, or to accommodate the most valuable pieces inside a safety deposit box.

On the following pages, you will find over 80 different varieties to meet every preference and application. Please select the size of your stockbook, as well as the color of the cardboard, the number of pages, and the material and color of the cover.

## Brand name quality Made by LIGHTHOUSE

Stockbooks are simple bound stamp albums made of extra heavy cardstock with strips to hold the stamps. They are available in an endless array of sizes, shapes and colors, with hard or padded covers. Some have rigid, book-like bindings, others are equipped with a flexible, double-linen hinged binding to ensure the pages lie absolutely flat. Certain styles are offered with matching slipcases to provide the best possible protection from dust and light. Stockbooks are an indispensable tool for every collector. They are useful for storing stamps before adding them to pre-printed albums as well as for keeping duplicates and extra stamps for trading. They are also recommended for starting topical collections or for storing your most valuable stamps in safety deposit boxes.

**LEFA = Leather fabrics** (bonded leather) is a bookbinding material consisting of leather fibres and other sustainable, natural raw materials (natural tanning agents, natural latex, natural fats and dyes).

By feltting the leather fibres, the LEFA material has almost all the important characteristics of natural leather. No other material comes as close to natural leather in terms of quality and workmanship as LEFA.

The LEFA cover material we use is characterized by optimum physical characteristics (tensile strength, strong seams, durability, tear resistance, etc.).

Only high-quality and carefully selected raw materials are used for LIGHTHOUSE products in order to ensure the desired product characteristics.

**LIGHTHOUSE VARIO sheets are the brand trusted by experienced collectors all over the world. *Why?***

- VARIO sheets are as versatile as no other system and they come in 18 different variations (see page 66). Whether you have multiple stamp sizes, souvenir sheets, booklets, coil stamps or FDCs – there is a VARIO sheet that fits just right. Also suitable for postcards, banknotes, phone cards, hotel room key cards, casino slot cards and whatever the collector's heart desires.
- Black VARIO pages are double-sided with crystal clear pockets or strips on either side for plenty of space. Clear VARIO pages are one-sided so that the item can be viewed from both sides. Black interleaves provide an ideal back drop or serve to separate chapters.
- Different sheets can be mixed and matched to create an album that suits your needs.
- Black pages are made of Hard PVC; clear pages of polyester. Both are 100% acid- and chemical softener-free, and have been chosen by experienced collectors time and again.
- VARIO pages are Made in Germany and have been for many years. Unlike generic sheets which may be sourced by the distributor from varying suppliers with questionable quality control procedures. LIGHTHOUSE guarantees a consistently high quality with its brand name.

And VARIO sheets are offered at a great price! Therefore, accept no imitations or generics and insist on genuine LIGHTHOUSE VARIO pages – just look for the LIGHTHOUSE logo at the bottom of each page.
